

ASK GOVERNOR FOR EXTRA SESSION

County Commissioners and Other Good Roads Boosters to Take This Step

WAIT UPON SHAFROTH TODAY

Declare at Meeting in Denver Only Resort on Rehalf Highway Funds

A special committee appointed at a joint meeting in Denver yesterday of the vice presidents of the Colorado Good Roads association and the County Commissioners association of the state, will wait upon Governor Shafroth this morning at 10 o'clock to ask him to call a special session of the legislature to take up the matter of securing for the counties their share of the state good roads fund, which now is unavailable because of the illegality of house bill No. 200.

At the joint meeting, held in the Denver chamber of commerce rooms, the question of securing the funds for the counties was thoroughly thrashed out and it was decided that it will be useless to try to initiate a bill turning the fund over to the state highway commission at the general election next fall. When Colorado was admitted to the union, congress passed a bill giving the state 5 per cent of all money realized from the sale of public lands. This money is disposed of by the state legislature, and the arguments were that if a bill were proposed turning the money over to the state highway commission it would meet with opposition and finally come to a deadlock. The matter would have to be thrashed out in the courts and the federal court would be resorted to. Since the federal court is far behind in its docket, the case would not come up for three or four years, and the counties would be in a worse shape than ever in the matter of good roads funds.

Special Session Last Resort.
The question of asking the governor to call a special session of the legislature to take action was then discussed and it was the general opinion of those present that this is the only way out of the difficulty. The

BEGIN CAMPAIGN FOR SIGNATURES TUESDAY

Committees in Charge Issue Statement Regarding Elections Amendment

In an effort to secure the 20,000 signatures necessary to initiate the measure to amend the state constitution so as to preserve the nonpartisan character of elections in charter-governed cities a vigorous campaign will be started Tuesday in Colorado Springs, Pueblo, Grand Junction and other parts of the state.

The proposed measure is to amend section 6 of article 20 of the constitution and it is hoped to secure at least 5,000 names in this region and to canvass the city thoroughly in about a week. The petitions must be filed with the secretary of state by July 8. Any qualified voter in the state is entitled to sign the petition.

At all committees in charge have issued the following statement:

Statement to People.
The people of Colorado Springs are petitioning to amend section 6 of article XX of the state constitution as herein prepared and will be presented to you for signature. We make the following brief statement of some of the reasons which led to proposing this amendment:

Article XX of the state constitution was intended to give home rule to Denver and to cities of the first and second class in Colorado. Article XX, as drafted primarily for Denver but as amended in the legislature so as to include other cities of the state, the amendment became section 6 of article XX. The amendment was really prepared and it is not clear in specific in several particulars and the charter conventions which have been held in Denver, Pueblo, Grand Junction and other cities of the state are now preparing to adopt charters under said article.

On account of the lack of clearness in section 6 of said article, litigation has arisen in Colorado Springs, Pueblo and Grand Junction. Colorado Springs has two suits and Pueblo one suit pending in the supreme court which have grown out of the unfortunate wording of section 6 of article XX, and other litigation may arise from the same source in the future.

In addition to the litigation which has already arisen, more litigation may arise by reason of a recent decision of our supreme court which may affect all charter cities in the state that have sought or may seek to eliminate their charters.

DEFEAT FOR N. J. POLITICIANS

THIS IS ROOSEVELT'S PREDICTION

Characterizes Some of Taft's Arguments as Being Sheer Nonsense

CAMDEN, N. J., May 24.—We are going to beat the politicians in New Jersey next Tuesday, said Colonel Roosevelt at the close of his second days campaign in this state. When we got through with them in Pennsylvania there was not enough left of them to put into a coal scuttle. It will be about the same thing here.

Colonel Roosevelt made a swing through New Jersey today, traveling to the Atlantic city and thence to Camden. From here he went to Trenton for his final speech. The crowds were large and enthusiastic. In some places the concentrated efforts of policemen and firemen were of no avail in keeping them back.

Colonel Roosevelt did not mention the name of President Taft during the day's trip.

In Camden where he spoke tonight he replied to a statement which Mr. Taft was reported to have made.

Mr. Taft said that if my proposal for a referendum on judicial decisions were adopted, said the colonel, there will be nothing to prevent a legislature from repealing the thirteenth, fourteenth and fifteenth amendments to the constitution and disfranchising the negroes. It is impossible to treat such statements as either sincere or serious. It is sheer nonsense. You might just as well speak of recalling the votes by which the 13 original states adopted the constitution.

"Suppose that the income tax amendment is adopted. Does Mr. Taft think that two or three states would repeal the amendment after it had become a part of the constitution? It is difficult to reply seriously to such nonsense.

In his other speeches Colonel Roosevelt mixed politics with various other things some of which bore no relation to the issues of the campaign. He was in a rollicking mood.

MADERO NEWSPAPER AT EL PASO IS BLOWN UP

EL PASO, Tex., May 24.—Shortly before 11 o'clock tonight the office of the Madero newspaper, published in the heart of this city and supporting the Madero government, was dynamited. The bomb was thrown at the front window, producing a violent explosion which, however, only wrecked a portion of the front of the building. No one was injured by the explosion.

FIGHT DUEL ON STREET

Four Persons Injured When Mexican and Business Man Fight in Trinidad

TRINIDAD, Colo., May 24.—Frank Harrison, a Mexican, lay at the hospital with a shattered hip and may die. John Doyson and Herman Bierbaum are slightly injured and Charles Aiello, a wholesale liquor dealer, is badly cut by falling glass. All were injured in a street pistol duel between Aiello and Harrison at 5:30 o'clock this evening. Aiello and Harrison quarreled over a business deal. Aiello pushed the Mexican from the sidewalk and the Mexican drew a gun firing two shots at the liquor dealer. Aiello opened fire with an automatic. Harrison dropped with the first shot but the liquor dealer was unable to stop the action of the automatic and a hail of bullets swept the street.

American Miners Drive Out Austrian Workmen at Mine Near Buena Vista

BUENA VISTA, May 24.—Ten Austrian workmen who were laboring near the Mary Murphy mine, 20 miles west of here were driven away by the American miners there last night. The foreigners were told not to return on pain of death and walked all night and part of the day until they reached here. W. F. Disbrow, superintendent of the mine, asked the men to return and promised them protection by deputy sheriffs. The Austrians were not working on the mine but the miners said that would have no foreigners in the camp.

MURDERER DIES BRAVELY

RAWLINS, Wyo., May 24.—Springing his own death trap, Joseph Seng paid the penalty for the murder of William Lloyd at 2:45 o'clock this morning at the state prison here. His neck was not broken by the fall. It was nine minutes and 45 seconds before life was pronounced extinct. Seng met his death bravely, walking to the gallows where he was to hang himself with head erect and with a slight smile on his lips as the black cap was drawn over his head. He stepped quickly upon the trap releasing a plug from a bucket filled with water, which emptying, released the weight that drove the trap. The crime for which he paid the penalty was the result of a saloon row at Evanston, Wyo., August 4, 1910.

SEN. ROOT NOT SATISFACTORY TO THEM

Roosevelt Forces Will Refuse to Abide by Selection of Temporary Chairman

WANT A REAL PROGRESSIVE

Say Man Not in Complete Sympathy With Colonel's Views Not Fit for Place

CHICAGO, May 24.—Ormsby McHarg, of New York, one of the managers of Colonel Roosevelt's campaign, tonight said the Roosevelt forces would refuse to abide in the selection of United States Sen. Elihu Root of New York as temporary chairman of the national convention.

McHarg said the Roosevelt managers would insist on the naming of a chairman in accordance with the Roosevelt policies. The names of Gov. Herbert S. Hadley of Missouri, Gov. Hiram W. Johnson of California and Sen. Moses E. Clapp of Minnesota were mentioned as being acceptable.

McHarg spent several hours in Chicago with the Illinois Roosevelt managers in his way to St. Paul where tomorrow he will meet a delegation from Washington state to map out plans for presentation of contests to the contest committee. McHarg said he would have charge of all Roosevelt contests to be taken before the Republican national committee this year and he did four years ago for President Taft.

Will Control Absolutely.

When the convention meets, said McHarg, the Roosevelt strength will be such that we will control the party. We propose to organize that convention along lines that it will not be at all comfortable for Senator Root to preside. That convention must have as chairman a man who is in accord with Colonel Roosevelt's views and policies and that means it must be some one other than Senator Root. It is absolutely impossible to have a chairman delivering a keynote speech who is out of sympathy with Colonel Roosevelt and the Progressive cause. There is no other side to that question.

In discussing the subject of the contests, McHarg said there would be at least 260 or 270 as against 225 in the 1908 convention. He will return here June 3 to take up the active work of presenting contests in June 6.

June 7 it was said tonight, would mark the opening of activities here for the final pre-convention struggle between Taft and Roosevelt forces. On that date the Taft and the Roosevelt national headquarters will be moved from Washington to Chicago. Congressmen William B. McKinley of Illinois will be in personal charge of the Taft headquarters and United States Senator Dixon of Montana of the Roosevelt bureau.

RELIGIOUS WORK AMONG STUDENTS BY BAPTISTS

DES MOINES, Ia., May 24.—Religious work among students in state universities and colleges in conjunction with other denominations was a plan agreed upon at today's session of the Northern Baptist convention.

In conformity with this action the convention will employ a national paid secretary to the church board of education to supervise the religious work which it expects to do.

"There is as much religion in not calling a Hebrew a sheeny, an Italian a dago and a negro a dingo as there is in chanting Psalm 119," declared the Rev. Martinus James of Brookline, Mass., in addressing the convention today. Americans are too busy in their judgment of the immigration question and their feeling of hatred toward the foreigner is too great.

LAST BISHOP ELECTED

W. P. Thirkield, President Howard University, Elected by M. E. Conference

MINNEAPOLIS, Minn., May 24.—By a vote of 542 to 24 the Rev. W. P. Thirkield, president of the Methodist Episcopal church today elected W. P. Thirkield, president of Howard university, a negro institution at Washington, D. C., the eighth and last of bishops or general superintendents. In addition the conference elected Dr. J. W. Robinson, formerly of Harlem, N. Y., but for 20 years a missionary in India, a missionary bishop for southern Asia and re-elected the four publishing agents of the church.

The election of Dr. Thirkield came on the twenty-sixth ballot, practically his only opponent being M. S. Hughes of Pasadena, Cal. who received 173 votes.

The night session was given over to the work of the American Bible society, the Methodist Brotherhood and the Methodist Federation for Social Service.

The report of the American Bible society dealt with the work of circulating biblical literature over the world.

HEIRESS EXPONENT OF GOOD CHEER

Miss Theora Carter, heir of a retired millionaire lumberman of Seattle, Wash., has just arrived in New York after a trip of 13,000 miles through the United States, Canada and Alaska, during which time she has organized 200 branches of the Society of Good Cheer. This society was founded by her and she is its head. It aims to bring the ill and lone among women wherever it exists and it now circles the world.

SEVERE ARRAIGNMENT OF ATTORNEY DARROW

At Opening of Trial, Prosecutor Makes Serious Charges Against Defendant

LOS ANGELES, May 24.—Accused in the opening statement of the chief prosecutor with wholesale arraignments and witnesses, Clarence S. Darrow, noted lawyer, said in his opening in an indictment that the attempted bribery of a juror in the McNamara case was a plot that had been hatched long before the trial and that the defendant, Arthur J. Barker, was a tool in the hands of the conspirators.

After the opening address by the jury, George L. Munroe, of San Diego, declared that the McNamara brothers, Edward and George, were the first victims of the prosecution. Munroe said he believed that the McNamara brothers were innocent and that the evidence against them was a concoction of lies.

Darrow, in his opening, said that the McNamara brothers were innocent and that the evidence against them was a concoction of lies. He said that the McNamara brothers were innocent and that the evidence against them was a concoction of lies.

BUDAPEST STRIKERS CONTINUE VIOLENCE

BUDAPEST, May 24.—Violence between the strikers and the police and troops took place again today in Budapest although the strikers had been ordered by the labor leaders to cease agitation and return to work.

The strikers used revolvers and stones and other missiles while the troops replied with volleys from their rifles. Many persons on both sides were wounded. The strikers were warned.

WALL PAPER MEN ARE EXONERATED BY JURY

CLEVELAND, O., May 24.—A verdict of not guilty was returned tonight in the federal court for the eight wall paper manufacturers and jobbers who were tried for alleged violation of the Sherman law in conspiring in restraint of trade in the conduct of their business.

The jury was out about four hours, and took 29 ballots.

The defendants were indicted here October 8, 1911. The government's chief witness was Frank Hall, West-hawken, N. J., who alleged that he had been unable to buy wall paper of the defendants because of a conspiracy into which they had entered against 5 and 10-cent stores, of which he operated a chain.

M'KINLEY SEES TROUBLE AHEAD

PAINTS OPPONENTS AS "TERRORIZERS"

Says If Taft Satisfied With National Committee Others Should Not Object

WASHINGTON, May 24.—The bitterest of the last that is a page about the Republican national committee when it was organized in New York City last week.

Mr. McKinley said that it was no coming again and that he would not be known means to terrorize the child's convention.

That the time has come when the moral of the party is to be tested is it has been said by the Republican leaders. Mr. McKinley said that the Republican party is the only party that has the power to make a break in the Republican party and that it is the only party that has the power to make a break in the Republican party.

LEASES BROADMOOR FOR GIRLS SCHOOL

Rev. A. H. Ewing Will Conduct First-Class Institution at Hotel and Casino

The Rev. A. H. Ewing, vice rector of St. Stephens school for boys, yesterday signed a contract with the Stratton trustees for a lease on the Broadmoor hotel and casino beginning September 16. On that date Mr. Ewing will open the St. Stephens school for girls, which will admit boarders and day pupils. The lease is for a period of several years and includes the lake and the surrounding grounds.

The deal was put through by Dr. A. J. Johnson of Wells, Spackman & Kent, who consummated the recent sale of the Broadmoor hotel.

The approaching opening of the new school for girls emphasizes the development of the Broadmoor as an educational center. With the St. Stephens school for boys, it will establish the new circle which will fill another long felt want, a complete college for the girls of the state.

And the numerous day schools in this city have given Colorado Springs an enviable name and it is proposed to make the new institution a credit to the district. Arrangements will be made to have graduates of the colleges and universities and the Colorado school for girls will talk with Dana Hall college and the other leading girls schools in the country.

NO JURY TRIAL FOR THAW

WHITE PLAINS, N. Y., May 24.—The jury denied was the only memorandum filed today by Justice Martin Keogh in the case of Harry K. Thaw, who in his recent legal effort to obtain his freedom from the Matteawan state hospital asked that the question of his sanity be passed on by a jury. Justice Keogh will himself pass on the mental condition of the man who killed Stanford White.

Rules and Schedule Combinations Pikee Peak Region Day Announced by Committee

The subcommittee of the special Chamber of Commerce committee for Pikee Peak region day, June 5, composed of Curt Goerke, chairman; B. M. Lathrop and J. R. Young, who have in charge the program for the day, yesterday announced the schedule of combinations. Although the percentage can be figured, the reductions being different for different attractions, the cost of each combination is about one-third the regular price for all attractions included in the combination.

A ticket office will be established in the city, where the combinations and combination tickets placed on sale. The following special rules for the day have been issued by the subcommittee:

SPECIAL RULES

Special tickets will be sold for all trips provided for on this day, but no special Pikee Peak Region day tickets will be accepted on any day except Wednesday, June 5.

The required number of special street car tickets will be provided for each combination of tickets, but regular fare will be collected on street cars.

from passengers not presenting such special tickets. One special ticket must be given on street car for each fare.

Regular prices will be collected on all carriages and at all attractions from persons not supplied with special Pikee Peak Region day tickets.

Special Pikee Peak Region day tickets are for residents only, and will not be sold to or accepted from nonresidents.

All tickets for the Short Line, Colorado Midland, Cog Road or Crystal Park line, will be valid for the trip for which sold. Other tickets can be used at any time of the day, but it is recommended that an early start be made by all as the capacity of a number of the places is limited. For the same reason tickets should be purchased at once to insure getting tickets for trips desired.

Extra street cars will be run for those desiring to make the sunrise and 7:30 a. m. trip on the Cog road and the 7:30 a. m. trip from Manitou for Crystal Park.

The Manitou Incline cars will run every 30 minutes each way, from 7 a. m. to 10 p. m.

The Cog road trains will be the sunrise train connecting with street car from Colorado Springs at 2 a. m. and day trains from Cog Road at 7:30 a. m., 1:30 p. m., and 5:30 p. m.

The Crystal park cars will leave Manitou at 7:30 a. m., 10:30 a. m., 1:30 p. m. and 4:30 p. m.

The Colorado Midland train through Ute Pass to Grand Mountain Falls will leave Santa Fe station at 9 a. m.

All the other attractions will run a continuous performance, with gates open early.

Carriages or burros will be provided as follows:

At the canon entrance for those desiring to make the trip to Seven Falls, Bruin Inn or the High Drive.

At Soda Springs park, Manitou, for those desiring to go to the Cave of the Winds, Cliff Dwellers or Balanced Rock.

Following is the schedule of combinations, prices, etc.:

Inate partisan politics from municipal elections. This decision was rendered in a case which went up from the city and county of Denver and involved the question as to whether the said city and county could, under its charter, provide for a registration board different from that provided for by the general election laws of the state. The court held that the general election laws of the state controlled in such matters. This decision makes it uncertain what that court would hold if the question of nonpartisan elections had been provided for in the charters of Colorado Springs, Pueblo and Grand Junction, were presented to it. If the court should hold that cities could not adopt any election provisions other than those found in the general statutes, the nonpartisan features of all city elections in the charter cities would be wiped out, one of the most salutary factors in municipal government would be lost and the incidental litigation would be avoided.

It was determined at a conference held by the representatives of Colorado Springs, Pueblo and Grand Junction, that some action should be taken by these charter cities to settle all controversy as to the legality of their charters and their right to hold nonpartisan elections. It was decided that this could be done most effectively by an amendment to section 6 of article XX of the constitution. The findings of this conference were presented to the confidential bodies of the three cities and were endorsed by them, and with the assistance and cooperation of representatives of these organizations, an amendment of section 6 was prepared together with a petition asking that this amendment be submitted to a vote of the people of the state at the November election.

The amendment as submitted is intended to make section 6 clear and explicit so that cities and towns in this state can adopt charters for home rule without becoming involved in litigation. It also provides that cities may, if they see fit, adopt charters providing for nonpartisan elections. It ratifies and confirms the charters of Colorado Springs, Pueblo and Grand Junction insofar as they conform to article XX as amended and the election held in pursuance to the provisions of said charters.

The undersigned have each carefully examined this proposed amendment, and we unqualifiedly endorse it, and we believe that it should have the earnest and hearty support of every citizen of Colorado Springs because it is of peculiar and special interest to this community, and that it should be approved by every elector in the state who believes in effective home rule for cities.

SEVERE ARRANGMENT

who was drawn as a juror in the trial of J. B. McNamara for murder in connection with the dynamiting of the Los Angeles Times building.

Charges Darrow Directed Franklin.

Two weeks before the date of the indictment, said Fredericks, Bert H. Franklin, then employed as a detective by Darrow, went to Lockwood and offered him a certain sum if he would vote not guilty, provided he were drawn as a juror.

"We will show," Fredericks said, "that Franklin did this at the instance, request and direction of the defendant."

Lockwood, according to the prosecutor's statement, then reported the incident to the district attorney's office and was told to continue his negotiations with the agents of the McNamara defense. When Lockwood's name was drawn, Fredericks said, Franklin again appeared at his house and offered to pay him \$500 down and \$5,000 additional after he had voted "not guilty."

Another appointment was made for the next night. At the next meeting said Captain Fredericks, Lockwood and Franklin were surrounded in the dark by agents of the prosecution, who heard the man agree that the initial payment of the money should be made the next day at the corner of Third and Los Angeles streets, where detectives observed the transfer of the money and arrested the men.

Makes Other Serious Allegations.

"We will show," continued the prosecutor, "that this was the same money which Clarence Darrow had given Franklin that morning. It was sent to Darrow by agents in the east and we will trace the money from that eastern source to Darrow's hands."

In making the allegations of corruption on a much larger scale, Captain Fredericks said: "We will show that the defendant endeavored to obstruct and defeat justice by paying money, or offering it to other jurors; that he paid hundreds of dollars to witnesses for the prosecution for the same purpose. He paid money to get out of the state so that they would not be here to testify."

Monroe's testimony was accompanied by the introduction in evidence of the record of Judge Bordwell's court to show the pendency of the McNamara case and the drawing of Lockwood as a juror. The indictment of J. B. McNamara was introduced as the people's first exhibit.

Monroe will resume the stand tomorrow morning and it is expected that he will be followed by Lockwood.

MONUMENT ON LAND MARK

TOPEKA, Kan., May 24.—Ceremonies dedicating a monument marking Pawnee rock, the old land mark for travelers along the Santa Fe trail, were held today, representatives of the Daughters of the Revolution, the state federations of women's clubs, the W. C. T. U. and the Kansas Day club of Topeka. The Woman's Kansas Day club inaugurated the movement that led to the purchase of the monument which has been placed on top of the rock. Standing on the open plain, nine miles out from Larned, the rock can be seen for miles. Years ago it was the regular night stop for trail trains. About its base several bloody battles have been fought between wagontrain men and the Indians. Five acres of land surrounding the rock will be maintained by the state as a park. The program for the unveiling included an invocation by the Rev. B. P. Unruh, donor of the site for the park. Five-minute addresses were made by representatives of the various organizations back of the monument movement.

ARNOLD MAY ARRANGE A MUNICIPAL CABINET

DENVER, May 24.—I want to get in touch with every condition in Denver, and to that end I am going to ask The Real Estate exchange, chamber of commerce, manufacturers and retail associations, wholesale merchants, jobbers, ministerial alliance and other civic and commercial bodies to appoint a committee of three to meet with the mayor once a month and discuss public affairs.

This statement by Henry J. Arnold, mayor-elect of Denver, gives vitality to the idea of a municipal cabinet, representing all the diverse interests of the city and working toward the definite end of a progressive and progressive community through the city administration.

The idea has been adopted in a number of large cities with the result that the administration secures the cooperation of the business, professional and workingmen, and through their representatives, called a municipal cabinet, which do not antagonize the interests of any one element or branch of business in the city.

ABANDON LUMBER SCHOONER

CAPE HATTERAS, N. C., May 24.—The four-masted schooner Rob Roy from Fernandina, Fla., May 16, for Philadelphia, was abandoned in a water-logged condition early today, two miles southwest of Outer Diamond shoals. Captain Norbury and crew of seven men were rescued from the vessel's rigging by Captain Edward F. Stowe and the crew of the Cape Hatteras life saving station in their power surf boat and landed here. The Rob Roy, owned by George Warner of Philadelphia, carried a cargo of lumber.

SOME MERCHANTS OPPOSE PIKEE PEAK REGION DAY

A petition protesting against the closing of the stores in Colorado Springs on Pikee Peak Region day, June 5, signed by a number of merchants, was presented to Acting Mayor Lawton yesterday. It follows:

"We, the undersigned merchants, having considered the advisability of closing our establishments on the day to be set apart as Pikee Peak Region day, find that we cannot consistently do this, believing that there are holidays enough during the course of the year."

The following names were signed to the petition:

Kaufman & Co., the Petal company, the Colorado Springs Dry Goods company, the Wolff Shoe company, the Deal Shoe company, Giddings & Kirkwood, J. H. Gardner, Perkins-Shearer company, Hamilton Jewelry company, Ball-Dickinson Hardware company, Wilbur Suit company, W. N. Burgess, F. W. Woolworth company, Hub Clothing company, Fred S. Tucker Furniture company, Sommers Meat market, G. S. Barnes & Sons, J. H. Bridger and F. C. Hayman.

It being said that the petition was circulated about a month ago, and that a number of the signers had withdrawn their names. The Gazette made a canvass of the signers, which resulted as follows:

Those who are strongly opposed to closing and state that they will not close even though the remainder of the merchants do are: Giddings & Kirkwood, Kaufman & Co. and the Wilbur Suit company.

Those who will act in accordance with the majority are as follows: Perkins-Shearer company, Deal Shoe company, Wolff Shoe company, Deal Shoe company, J. H. Gardner, Ball-Dickinson Hardware company, W. N. Burgess and Hub Clothing company.

The following could not be seen: Hamilton Jewelry company, Sommers market, G. S. Barnes & Sons, J. H. Bridger, F. C. Hayman, Colorado Springs Dry Goods company, F. W. Woolworth and the Fred S. Tucker Furniture company.

Report of Subcommittee.

These same merchants were canvassed by a subcommittee of the Pikee Peak Region day committee several days ago, which made the following report:

"The Chairman of the Pikee Peak Region Day Committee:

"Your committee appointed to visit 19 merchants who signed a petition protesting against the closing of their stores find as follows: The majority of those visited were willing to close

"A COLORADO SUMMER" NEW SANTA FE FOLDER

A circular folder entitled "A Colorado Summer" has been issued by the Santa Fe for wide distribution throughout the east. It is one of the most pretentious ever put out by a western railroad and the cuts are nearly all new. The folder contains a generous number of views of the Pikee Peak region with special writings of Colorado Springs and Manitou. The frontispiece is a new picture of Pikee Peak, taken in winter. There are 57 separate views shown and a new contour map of the Rocky mountains.

The directors of the Chamber of Commerce has endorsed the plan, and with one or two exceptions, everybody is working to make it an unqualified success.

CUT THROAT AND AWAITS DEATH FOR MANY HOURS

DENVER, May 24.—With two deep gashes in his throat and both wrists badly cut, a man thought to be Edward W. Thornton was found in the doorway of a vacant store at 1638 Court place shortly after midnight this morning. He was unconscious when found, and lying on the grassy pool of blood in which he was lying, he had been there for nearly a half hour. Little hope is held for him.

Beside the unconscious man was found the bloody knife with which he had attempted to take his own life, and a partially filled pipe, giving evidence that he had cut himself and then calmly awaited death smoking.

According to information received by police of the Midland 1638 Court place, the man appeared there early last evening and asked to borrow a revolver from several of the guests. He refused to state why he desired the weapon, it is claimed, and as he acted peculiarly, his request was not granted. He left the place about 11 o'clock.

That his name is Thornton is believed, but no letters addressed to him that name were found in his pockets when he was taken to the hospital. His wife, Mrs. May Thornton, and son, 14, of 241 South Spring street, Los Angeles, Cal., were contacted by police.

MANITOU DEPARTMENT

ASK RECONSIDERATION OF AUDITORIUM PROPOSITION

Jerome B. Wheeler and Dr. Basil B. Creighton have written open letters to the school board and the people of Manitou in an effort to induce the school authorities to reconsider the auditorium proposition. The letters point out that a majority of the people of the town voted in favor of the auditorium and that an erroneous impression was created that a public building was to be built with school funds.

S.S.S. A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy has made S. S. S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixture which temporarily remove the outward symptoms and shut the door to the system, there is to carry on its destructive work on the delicate vital organs, S. S. S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the blood. S. S. S. is Nature's blood purifier, it follows its action and its results are good results. It is made from a combination of roots and herbs, each which has a definite and specific action in purifying the blood. Years of spent in selecting and proportioning the different ingredients, but with S. S. S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only cure for Contagious Blood Poison. While driving out the poison from the circulation S. S. S. builds up and strengthens the system by its fine vegetable effects. If you are suffering with Contagious Blood Poison S. S. S. your most certain reliance, and because of its freedom from any pore or any other mineral, it is absolutely safe for every one. No treatment book with valuable suggestions and any medical advice sent free to all who write.

35 MEN ON PAYING JOB STRIKE; WORK UNIMPEDED

About 35 men, including 12 cement workers, 15 concrete workers and six block layers, quit work on the street paying job yesterday, declaring that they would not return unless J. F. Hill, the contractor increased their pay from \$2.10 to \$2.50 per day.

We went to the foreman, said one of the striking concrete men yesterday afternoon, "and told him we would not work any longer for \$2.10 a day. He told us to quit if we wanted to, and when we carried the matter to the superintendent he gave practically the same reply, and told us to draw our time. We find it hard to live on the wages paid. The work is rough and wears out shoes and clothing in a few days. Nearly all the men who went out this morning."

Representatives of the Hill company said last evening that the work is progressing satisfactorily, irrespective of the strike, and they expect no delay because of it. It is said that men were soon obtained to take the places of the strikers.

Work on laying asphalt will start Monday morning, according to the Hill people.

NEW BRAKES A SUCCESS

Average Tonnage of Allied Cripple Creek Lines Freight Trains is Greatly Increased

The average tonnage of all the allied Cripple Creek lines freight trains has been more than doubled as a result of the installation on all the freight engines of a new air brake equipment as described in The Gazette some time ago. The cost of the improvement was about \$10,000.

A demonstration train of 36 cars carrying a load of 1,600 tons was brought from Cripple Creek to Colorado Springs recently by Engineer J. W. Logan and met a hand brake was used during the entire trip. On the train were Gen. Mr. Jesse H. Waters, Supt. J. R. Flaherty, Master Mechanic H. W. Flesher and F. W. Alingworth of Denver, a Westinghouse man who had charge of the installation of the new equipment and all were highly pleased with the exhibition.

The former capacity of the freight trains was 800 tons, so the load on the demonstration train was 1 1/2 per cent heavier than ever hauled before. The engines have been increased about 100 per cent in capacity and the average load now will be 1,000 tons instead of the maximum of 600 tons.

Were it not for the fact that there is a grade from the Cripple Creek district to Summit the average load could be made about 1,500 tons as the remaining 22 miles is down grade. However the tonnage for regular traffic will be regulated by the power required to go from the district to Summit.

The new brake is simply an improvement over the old Westinghouse brake but with new devices which more than double the former efficiency.

CHARLY BALL GAME AT ZOO ON JUNE 14

Leading physicians of Colorado Springs will be seen in a role new to most of them in the near future, on the occasion of a baseball game for the benefit of St. Francis hospital. A baker's dozen of well-known medical men already have volunteered their services either as diamond artists or as a relief corps, and others are expected to enlist shortly.

The game will be played at Zoo park Friday, June 14, the date being set far enough ahead for the physicians to get their cleavage sharp, and owner Coughlin has offered not only the use of the park but of the Zoo ball team. It is expected, however, that some other business or professional men of the city will back up the doctors. A large number of doctors as ball players and offer to take the field against them. Tickets will be placed on sale Monday at 50 cents each, and all money received will go to the benefit of the hospital, which has lately been put to heavy expense by a large number of charity patients.

Among the medical men who have volunteered their services are Drs. Lennox, Tucker, McKinnis, Magruder, Gillett, Perkins, Brown, Moses, Griffin, Peters, Maxwell and Fitzpatrick. When the roster is filled there will be a formidable array of talent on the field. Archie McGargue of the Midland will manage the aggregation.

G. A. P. ORDER ISSUED ON PROGRAM MEMORIAL DAY

A. P. Mason, commander of Colorado Springs post No. 22 G. A. R., has issued general orders for the observance of Memorial day, May 30. The nature of the program will be much the same as in former years. Dr. Samuel Garvin, pastor of the First Presbyterian church will give the oration at Evergreen cemetery and the Rev. E. E. Brewster will preach the sermon at the exercises in the First Christian church tomorrow morning.

A gun salute will be fired over the graves by a picked squad of Spanish-American war veterans. A detachment of police, Company A of the Colorado National guard and the Spanish-American war veterans. The general order is as follows:

G. A. R. Order.

Headquarters of Colorado Springs Post No. 22 Department of Colorado and Wyoming G. A. R. general order No. 1.

In obedience to orders from headquarters of the Grand Army of the Republic, Memorial day will be observed by this post on Thursday, May 30.

This day was originally set apart not as a holiday but as a remembrance of the heroic deeds of those who gave their lives for this our glorious country, and that the young generations might be taught lessons of patriotism and devotion to the highest interests of citizenship. It is therefore most earnestly requested that all who love their country will refrain from deserting the day by countenancing anything that will detract from the spirit of loyalty which should be manifested by every patriotic citizen.

Let all join together with due solemnity to visit the last resting places of our noble dead and see that forms have been observed and proper decorations made.

Sunday morning the annual memorial service will be held at the First Christian church. Members of the post and all affiliated orders will meet at G. A. R. hall at 10 o'clock and in a body march to said church.

Thursday post will assemble at 9 o'clock promptly at the hall.

Formation will be on Kiowa street with the band Spanish-American war veterans and state militia on the right as escort.

Line of march will be as follows: South on Nevada to Costilla where cars will be in readiness. This route adopted owing to condition of streets.

Arriving at cemetery the post will again form and proceed to the G. A. R. lot where the following program will be observed:

Opening by the commander.
Prayer by the chaplain.
Song by the Temple quartet.
Lincoln's Gettysburg Address.
Grover C. Kinney.
Ritual exercise.
Song by quartet.
Salute to dead and tape by detail of Spanish-American war veterans.

FIGHT ON STATE TAFT DELEGATION REPORTED

P. B. Stewart, Rumored Leader, Knows Nothing of Supposed Contest.

Gives Views on Matter

Reports from Denver last night were to the effect that a contesting delegation from Colorado, led by Philip H. Stewart of this city, would go to the Republican national convention at Chicago, June 18.

When questioned as to the rumor Mr. Stewart said:

"So far as I know, there is no movement to contest the seating of the Taft delegation at the national convention. I certainly would have no part in it. Although I firmly believe that the Taft delegation is not representative of the state convention here last month was not in accordance with the will of a majority of the Republican voters of Colorado, there is no technical ground for a contest. The delegates to the state convention were hand-picked and various methods were resorted to in order to control the gathering for Taft, such as early committee meetings. However, the spurious party regulations were not broken in letter and little as Colorado's delegation represents the expression of a popular will in this state, in my opinion there is no ground for contest which would be entertained at the national gathering."

NEW MEXICO MAN BUYS HOLLAND DAIRY HERD

E. E. Van Horn, proprietor of the Sunshine creamery in Albuquerque, N. M. who recently purchased the Holland dairy herd of 82 milk cows from the Holland dairy proprietors of this city, was in Colorado Springs yesterday and made arrangements for shipping two cars of the cows to New Mexico. Mr. Van Horn took one car back with him when he returned home some time ago. He purchased the cows for farmers living in the vicinity of Albuquerque who supply him with dairy products. He said good milk cows were scarce in New Mexico and he was looking for the farmers so they could keep his creamery supplied.

Mr. Van Horn went to Denver last night where he will try to purchase more cows of fine stock. He will probably make a tour of the state to purchase cows before returning home.

COLLEGE CATALOGUE OUT

The 1912 catalogue of Colorado college just issued shows a total enrollment of 27 students of whom 202 are in the undergraduate department. More than 40 per cent of the latter are in the two lower classes. The most striking feature of the catalogue is a map of the campus, showing the location of Washburn field, the Jungle and the principal buildings. The compact and systematic arrangement of this year's catalogue is noticeable. The faculty of the different departments are no longer separated, and in general a good deal of attention has been paid to the saving of space. The foresters will be particularly interested in the new publication which explains the details of the transfer of that department to Manitou park during the greater part of the year.

THE BEST PROOF

Colorado Springs Citizens Cannot Doubt It

Doan's Kidney Pills were used—they cured. The story was told to Colorado Springs residents. Time has strengthened the evidence. Has proven the cure permanent. The testimony is home testimony. The proof convincing. It can be investigated by Colorado Springs residents. J. N. Basham, 115 S. Corona St., Colorado Springs, Colo., says: "The use of Doan's Kidney Pills gave me freedom from kidney trouble and I gladly praise this remedy whenever I have an opportunity." (Statement given August 17, 1911).

On February 24, 1909, Mr. Basham said: "I was subject to attacks of kidney complaint and I believed that the trouble was hereditary. The pain which extended from my right side into my kidneys and hips caused me a great deal of misery, especially when I stooped or worked. Doctors said I had a floating kidney. Nothing in the way of medicine or treatments brought me as much relief as I obtained from Doan's Kidney Pills, procured from the Butcher Drug Co. They disposed of the pain in my side, strengthened my kidneys and benefited me in every way."

THE PAVING JOB

THE work of tearing up the streets preparatory to paving was begun April 6, so this is the seventh week of actual construction. When the contract was let it was announced that the job would be finished by July 1 and a clause was added, we believe, providing for the indemnification of the city for delay after that date. But it is now plain that the paving cannot possibly be finished by July 1, and there is pronounced public dissatisfaction over the certainty of the streets being torn up during the tourist season.

But before indulging in criticism let us see what has actually been accomplished in the seven weeks since work was started. The east side of Tejon Street has been excavated, curbs, gutters and concrete foundation laid and new street car tracks put in from Boulder Street to Vermijo Avenue, a distance of seven blocks. We understand that the laying of asphalt on Tejon Street will be started next Monday or Tuesday and will proceed at the rate of about one block a day until it is finished. If this is the case the east side of Tejon Street can be opened to traffic by about the third or fourth of June, and the work of tearing up the other side can be started. Tejon Street will then be 50 percent complete but the public convenience will be enhanced in even larger measure for street car service can be resumed on one continuous track.

The curbing and concrete foundation have been finished on one block each of Bijou, Kiowa and Huelfano Streets. An additional block has been excavated on Bijou Street, and the dirt gang is now busy on Cascade Avenue and East Pikes Peak Avenue. On the latter thoroughfare better progress has been made than is generally supposed. The excavation and curbing are almost finished on the north side of Pikes Peak Avenue from Cascade to the Santa Fe depot, and at the eastern end three or four blocks of concrete foundation have been laid. Construction gangs of the street railway company are working on Huelfano Street and Pikes Peak Avenue.

A PROMISE THAT WON'T BE KEPT

With this showing at the present time it is safe to say that the paving job is scarcely more than one-fourth finished. Serious delay has been caused by the failure of the asphalt-mixing plant to get here on time, a mishap which the contractors blame on the railroad company. However, it is doubtful whether very much asphalt could have been laid anyway, since it is necessary for the stone-work which lines the railway tracks to "set" in cement for ten days before it will bear the weight of the steam roller used in laying asphalt.

The inevitable conclusion is that Colorado Springs is in for a disagreeable experience with torn-up streets for at least two months to come. Indeed, we shall be lucky if the mess is entirely cleared away by the middle of August. Just who is to blame if anybody is to blame we do not know, but the contractors certainly should not have promised the job by July 1 when they knew that they could not make good. And they must have known this, for they now frankly admit that they need at least an additional month, although nothing has happened to delay them except the non-arrival of the asphalt mixer. Weather conditions have been unusually favorable and work has been stopped only on the two days following the big snowstorm.

There is some consolation in the assurance that hereafter the work will be carried on much faster than it has been, but just the same it is hard to forgive the contractors for arousing false hopes by their promise of a finished job by July 1.

DIG DANDELIONS

TO MOST Colorado Springs householders the advice contained in the above headline is superfluous, for they either have dug dandelions until convinced of the hopelessness of further effort or else they became convinced of it by the easier method of watching the never-ending struggle of their

loves the soil and climate of Colorado Springs ardently; it came here in the early days and selected this place as its permanent abode; and it has multiplied even faster than the flies. Because of the wide distribution of its seeds by the wind and through the irrigation ditches it is able to invade the most carefully tended lawn, and regularly each spring it spreads a yellow blanket over the entire city which remains until fall.

The complete eradication of the dandelion in Colorado Springs is a task compared to which the twelve labors of Hercules would be easy, but the case is not altogether hopeless for the individual who is willing to spend the money or the time and labor to keep his lawn free from the yellow peril. There are numerous lawns in Colorado Springs which attest the truth of this statement, for from early spring until late fall they are wholly without dandelions. But it takes work, work, work and then still more work. Incidentally, we observe that very few such lawns are tended by their owners, for even the most industrious man would rather pay somebody else to grub dandelions than do it himself, even if he has to sacrifice some of the comforts of life to get the money. The amazing rapidity with which dandelion plants spring up, flower, go to seed, and then repeat the performance makes the task so discouraging that it is a wonder the whole community did not long ago resign itself to its fate.

TODAY IS THE DAY TO DIG

A few years ago the authorities of the Agricultural School at Fort Collins announced a "sure cure" for dandelions viz: a spray which would kill roots and all in not more than two applications. The solution is made by dissolving one and one-fourth pounds of iron sulphate in a gallon of water, and should be applied forcibly so that the entire dandelion plant is covered with it. This method is highly recommended, but we do not know whether it has been thoroughly tested in Colorado Springs.

But there is no denying the efficacy of the old-fashioned method of digging them out. It is tedious work and productive of many a backache, but it also produces results. Of course another dandelion plant will spring up in the same spot on the next day and be in full bloom two days later, whereupon the whole job of digging must be done over again. But if you want to be absolutely sure of keeping dandelions out of your lawn it is the only way.

As a part of its effort to make Colorado Springs a better place to live in, the Civic League asks that today be observed as Dandelion Day, and that every householder devote a part of his time to removing this public enemy from his lawn and from the borders of the street ditches. This is a campaign which ought to arouse lively public interest, and we hope that when the sun sets this evening there will be many thousands fewer dandelions in Colorado Springs as the result of it.

The Helpful Package

By WALT MASON.

The man who has a bundle of sins hanging over his head, and the knowledge of his fund'll precede him everywhere, and every blooming maiden will always treat him like the man with guileless laden, the man who has the price, and moralists may thunder about our lust for gold, and say it is a blunder the rich man to uphold; our slavish adoration of gold and silver yen to threatening the nation, demoralizing men. Though he's abused in sonnets and eulogies from pole to pole, we always doff our bonnets to him who has the roll. I rather like the kisser who often deftly swears at sinful get-rich-quickers and multimillionaires; for wealth, that is a blessing when moderate it seems, becomes a thing distasteful when carried to extremes. Oh, we are surely wiser when we our lids uplift, not to the sordid miser, but to the man of thrift; and like a silly farce'll seem only things we say of him who has a parcel of boodle put away.

"Perchance We May Remember"

By RUTH CAMERON.

Did you ever happen to notice what different things different people will remember about the same event?

Truly it is a most interesting study in the psychology of memory to try this experiment. The other night, four of us who had not met for some years—I refuse to say just how many—came together. Naturally we fell to reminiscing. At that last meeting we had all gone off on a canoe trip together, so the conversation ran something like this:

"I remember that fancy filling in them, that Gretchen made" questioned one of the men folks of the party. None of the rest of us could remember. "I remember the lemon and lime that we got at that little corner drug store. And didn't it taste good after that hot walk?" reminisced another materialistic male. He also was alone in his reminiscence.

"My, wasn't it hot?" mused Gretchen. "I wore the most shocking rug of a dress because it was the coolest thing I owned, and I didn't have the decency to be ashamed of it."

"I remember that dress," corroborated another member of the party. "It was light blue and it had white around the neck, and you looked as cool as a cucumber and a good deal prettier." (I don't suppose I need state the gender of the member from which this corroborated came.)

"Oh, I remember it too," suddenly recollected. "It had white linen collar and cuffs buttonholed in blue. You made them at my house."

"And after lunch we read a story aloud, and the boys said it was silly and sentimental, but it really was beautiful,"—this from Gretchen. None of the rest of us recalled the story at all.

Then I recollected a game of cards which no one would corroborate; and Gretchen told about a picturesque little woman on the train who had lost her flock of ducks, which kept flying near us all day, and of which she was undoubtedly have brought down a dozen at a shot if he had had his gun; the other recalled a short cut through the heart of the woods which we took on the way home. Not more than two of us remembered any of these things; most of them, all but one of us had entirely forgotten.

But enough. I didn't mean to bore you with a full account of our canoe trip. I merely wanted to illustrate how strangely memory works. Just as two people will pass down the same street and see totally different things, so two people will pass through life remembering totally different things.

Try the experiment some time. Recall some event which happened at least five years ago, and in which three or four people participated, and get them to reminisce about it. I think you will be interested to find what different things each one will remember.

PIKES PEAK REGION DAY.

To the Editor of The Gazette:
I note in your yesterday morning's issue that the committee of the Chamber of Commerce had decided on June 5 for the Pikes Peak Region Day.
I am somewhat surprised that teachers and pupils of this city were not given more consideration in the matter of arranging this date. As you will know, June 5 is but a day or so before the closing of the schools and makes it an especially hard time for the teachers and pupils to take advantage of the holiday, which I presume it will be for others. It being quite improbable that the board of education would close the schools at that time of the year for one day.

If it is not too late I would like to suggest to the Chamber of Commerce committee, through this column, not knowing the identity of the committee, that some day after June 1 be chosen.

PUBLIC UTILITY COURTS.

To the Editor of The Gazette:
The Colorado citizen will be called upon at the next biennial election to vote upon the Public Utility bill which is being petitioned for by many citizens in the state.

There are more than half a dozen measures upon which all qualified voters will have to pass judgment at the next election; but the Public Utility measure, in my opinion, is the most important to our material and moral well being.

We are living in an age of trusts and monopolies. These institutions are here to stay, for they are the natural growth of our commercial and industrial system (not all agree as to what kind of a growth it is, some think it is an arm to a human body while others look upon it as a boll on the back); but that it is natural none can deny. Nor do we deny that it has assumed abnormal proportions to our body politic which our government can hardly cope with; that with the enormous wealth at their disposal it has corrupted our houses of legislation and our courts of justice, that with its concentration of wealth it put fair competition out of commission and left the individual helpless in the struggle for an existence.

And in addition to this, the trust is master in the adjustment of prices for the commodities we need and use, and that brings us to the point why we shall vote for the Public Utility measure.
It aims to establish a court in Colorado to fix a fair rate for public means of transportation, communication, and other utilities that the people commonly use. It also aims to curb the power of corporations to bribe public officials with free passes and other little devices which throw temptation in their way to disregard their oath of office.

It takes the fixing of rates out of politics. It keeps the legislature from interfering. It provides for reasonable public service rates. It is self-executing and self-operative. No court can suspend its rates except the supreme court, and then only by five members. It prohibits passes and free service. It gives the people a source of law.

In short, it aims to keep the trusts and monopolies within control of our government.
The Gazette recently has called public attention to the inadequacy of our interstate commerce commissioners, when nearly all of their decisions were made by every court in the country and thus have made that office a sham and a mockery. Not so with this proposed public utility court, whose decisions can only be reversed by the supreme court.

WOMAN AND SOCIALISM.

To the Editor of The Gazette:
Conscientious women all over the world are awakening to the need of new action. This call to action is formulated in various associations, notably in the W. C. T. But among the most prominent workers in that field are women in a rut, whose vision is held by prejudice, who dodge at the word socialism.
I have attended numbers of W. C. T. U. meetings, some Frances Willard memorial, but in all the

FIRST AID TO INJURED HEARTS

By Laura Jean Libbey

WHEN THE PARTING COMES

(Copyright, 1912, by Laura Jean Libbey)

The great disaster at sea, which has so lately shocked the entire world to its heart's core, brings home to us the truth of the words that we never know what will happen to us between the setting of the sun and its rising. It teaches, among other things, one grave fact, that we should never allow one whom we love and who loves us to part from us in anger, for we can never know under what conditions we may behold the beloved face again.

We hold and clasp the loved one who is to embark on a journey long and tenderly in our arms, but the one equally beloved whom we expect will be with us again when the twilight gathers, we may have parted from without a loving kiss or a handclasp because of some hastily uttered, angry words, without realizing appalling dangers can be met on land as well as sea.

If two who have loved each other well are destined by the great ruler of our destinies to part without one word of penitence over the words of bitterness which should never have been uttered—the one who is left to mourn is over afterward the victim of the keenest remorse, for which there is no balm.

Life should be measured by its joy—not by its regrets.
Every warning that comes to us should drive home to our heart the realization that we should never part from those whom we hold dear, save with affection. A kind word, a loving act of tenderness, may be a bright gleam that will live in the memory while life lasts. Pity the child who goes forth from his home with the sad memory of a mother's frown, instead of her smile, because at some childish prank, or the husband who leaves his home denied a caress by his wife because of some difference. There is an end in this world to all things—to love, to home, to happiness.

There is no tie so strong that it will endure forever. Soon or late we must bid adieu to each and every one who has a hold upon our hearts. Not knowing whether that hour of parting be far or near, each parting with a loved one should be tender and heartfelt. Pride and anger should never stand in the way of giving and taking a kindly farewell. Life is an uncertain voyage at best. Many a man and woman are like a noble ship that goes down in a calm when the sun is shining on a smooth sea and the world seems all tranquility.

One letter comes to me from a bride of several months. She writes:

ANSWERS

"I am so wretched. My husband leaves the home in the early morning, scarcely saying good-by to me. We are constantly wrangling, and oh, over such silly trifles. What shall I do?"

"MRS. D."
I grieve to say that in a number of such instances the strained situation is the wife's fault, possibly. Too wedded to love, and to be his angel of peace. Prove to him that you are willing to be that. Never let him part from you in anger or indifference. A kiss will save many a tear. Think how bitter life would be if he were suddenly taken from you.

DON'T SUPPORT HER.

"Dear Miss Libbey: I am 24, was married four years ago, and have been miserable for three years. I had to make my own way. My husband would not work. His treatment hurt me and turned my love to dislike. We are separated, and my friends advise a separation. For my name and honor I have lived with him. What do you advise? He is working now, but that does not bring back my love. I know you would advise a separation unless you knew I was absolutely necessary. My heart longs for a home and babies, but am so miserable I can think only of one thing—freedom."

"I never give advice in regard to divorces. It is too serious a matter for an outsider to attempt to settle. You must think the matter over quietly, carefully, make up your mind what is for the best, and abide by your decision. If the man has not supported you, you could get a divorce on that score."

"VAN DYKE READ ON CHILL"

"Dear Miss Libbey: I am considered good looking and a general favorite among my lady friends, recently I have become discouraged and heartbroken. Am in love with a woman here, but about my own age (45), and she also seemed to be with me, as she often used to call at my office to see me, but recently her affections seemed to change. Another fellow came to town, and since then all her smiles have been for him. He has a little Van Dyke beard on his chin. Do you suppose she would turn back to me again if I let my whiskers grow like that, too? Please let me know at once what to do, as I'm very anxious and know I will always have a big heart wound if I do not win her affections and love again. I saw her smile at the other fellow right in front of my place of business."

"WILLIE."
I don't know, Willie. Might try growing the "Van Dyke." I am afraid you haven't much of a chance, though, if it means much effort on your part. You don't seem to have much of the intuitive in your makeup.

MAY 25, 1882.

At a special meeting of the city council the Denver and New Orleans railroad was granted a right-of-way through Moreno avenue and Sahwah street.

More prairie schooners headed for the mining camps of the Gunnison country were passing through the city than ever before.

Rapid progress was being made in the construction of the first Antlers, the walls being nearly up to the level of the third floor. The contractors expected to have it finished by October.

Prof. W. F. Gausser, an instructor in botany at Harvard, was in Colorado Springs collecting specimens from which to have glass models of local plants made for the Harvard collection.

People in the north end of town were complaining that rabbits were destroying their gardens and fruit trees.

A shaft on the Lee claim of the Bull Mountain Mining company struck an extension of the then famous Buena Vista vein. Both of these claims are now part of the Isabella property.

THE HASKIN LETTER

CARIBBEAN POLITICS

XXV—GUATEMALA AND ITS NEIGHBORS.

By FREDERIC J. HASKIN.

GUATEMALA CITY, May 9.—When Secretary Knox was here, he had a heart-to-heart talk with President Estrada Cabrera, in which he informed that gentleman that the United States expected him to stop meddling with the affairs of the other Central American countries and to let them work out their own destinies. President Cabrera replied that he would do so, and declared that he was willing to be judged by his deeds rather than by his words—just a gentle reminder that the Guatemalan minister to Washington had faithfully borne to him a statement that that would hereafter constitute the basis upon which the state department thereafter would judge Guatemala.

How seriously Cabrera took the remark of Secretary Knox is not known; but it has since been reported that he had practically arranged to join with President Bonilla in denouncing the attitude of the state department in trying to secure a treaty giving the United States control of the customs of Honduras and a station treaty with Nicaragua. It would therefore seem that he is inclined to pay about as little attention to what the Washington authorities say to him as he has paid to the representations of the English bondholders.

But if he actually is treating Washington with contempt, he is probably riding to a fall. It will be remembered that a convention was held in Washington some years ago, with the United States and Mexico as its sponsors, which negotiated a neutrality treaty between the several Central American republics. Each pledged itself to keep out of the affairs of the others, and all pledged themselves to guarantee the neutrality of Honduras, so long as Honduras maintained a neutral position. The United States has insisted that this treaty be lived up to. President Zelaya of Nicaragua failed to live up to it, and that was one of the reasons why he was unceremoniously exiled from Nicaragua and told that if he valued his life he had better not return. In his letter breaking off diplomatic relations with Nicaragua, Secretary Knox declared that it was notorious that Zelaya had almost continually kept Central America in turmoil, and that he had repeatedly and flagrantly violated the provisions of the engagements so solemnly entered into at Washington under the auspices of the United States.

May Meet Zelaya's Fate.

It is perhaps a safe prediction that if Cabrera continues to play the Zelaya role, as indications seem now that he may, he will meet Zelaya's fate. Of course, he is a shrewder man than Zelaya ever was, and, after all, the statement that he might join with Bonilla in denouncing the policy of the United States may have been put out more as a feeler than as an announcement of a serious intention. This much is certain: Cabrera has much for which to thank the United States. He has used the British bondholders who furnished the government with its money in a way that has won for him the contempt and enmity of the Britons, and if it were not for the restraining hand of the United States and the Monroe doctrine, he would give him one of the soundest spankings a Central American ruler ever received.

The British bondholders' council has denounced him in the most scathing terms. On four different occasions he has submitted plans for the adjustment of the loan, on which there had been a default of interest ever since he came into the presidency; but, before his proposition could be accepted, in every instance he has gone back on the bargain. They charge that he has used the securities solemnly hypothecated to secure the loan for other purposes, and that his promises are not worth three farthings.

With Zelaya forever out of the game, Cabrera is left alone in Central America with his ambition to rule over Central America from Tehuantepec to Panama, and it is almost certain that he would set about at an early date to accomplish that end but for his fear of interference from Mexico and the United States. Mention was made in a previous letter of a paid agent, who is going through Central America, preaching the doctrine of a Central

American confederation, and there are those who believe that his inspiration, financial and political, comes from the neighborhood of the Plaza de Armes, in this capital.

Past Master in Intrigue.

President Cabrera is a past master in the art of political intrigue, and for years he made his moves on the political checkerboard in his great game with Zelaya so smoothly that people scarcely suspected that he was playing at all. In 1902 the five republics came together at Corinto, where the five presidents agreed that they would assist each other in maintaining themselves in power. Zelaya and Cabrera planned that little scheme. Three years passed, and then a revolution broke out in Honduras. And the agreement became a dead letter. In 1905 Cabrera was caught red-handed, aiding ex-President Alfaro of Salvador, in a revolution against the established authorities of that country.

Later, Salvador invaded Guatemala without taking trouble to declare war, and honors were about even when the United States stepped in, and a treaty was negotiated between the representatives of the five republics and the American and Mexican ministers, pledging the five republics to good behavior. In 1907 the Washington convention was entered into, and the peace court at Carthage established. Stings of the latter body barely had begun when Zelaya put his troops aboard the Montombo, a delapidated gunboat, and sent them up to Acapulco to invade Salvador. He had as his ally ex-President Alfaro. While Cabrera supported President Figueroa at this juncture, it was upon this occasion that the invaders went to Sonsonate, carrying a Gatling gun on a flat car, with the late aviator, Johnny Moisant, as its operator, negotiated a forced loan at the bank, and fled back to the Montombo upon the approach of the Salvadoran army.

Override Constitution.

In the Honduran revolution of 1907, Manuel Bonilla was in power, the same Bonilla who is now president. He decided he wanted to stay in office for six years, and so lengthened his term, the constitution to the contrary notwithstanding. Then Zelaya came into the situation as the champion of constitutional government in a neighboring state. Neither he nor Estrada Cabrera liked Manuel Bonilla, because neither could control him, and each wanted a creature of his own in the Honduran presidency. Bonilla called Salvador to his assistance, but Zelaya would not. He decided that he wanted Sierra as president, he being one of the two men who had been president in Honduras without being compelled to resort to force to keep himself in office for the term of four years. Cabrera wanted another man by the name of Arias. A compromise was finally effected by choosing Miguel R. Davila, who, in turn, was overthrown in 1911 by the man he succeeded, Manuel Bonilla.

It is asserted in some quarters that the prospective revolution in Honduras, of which Polanco Bonilla, another former president of the republic, is the reputed instigator, is "a" the backing of Guatemala. There are predictions that he will be successful, and that it will result in Estrada Cabrera's having a head in Honduras affairs while Polanco runs things. It is only fair, however, to state that this is only rumor.

With all this in mind, it will be seen that there is seldom any revolutionary movement that occurs in Central America to which the doughty president of Guatemala does not bear a more or less intimate relation. He is a man who loves power, and in the days of Zelaya was particularly jealous of the conflicting ambitions of that dictator. Nor is this all. Guatemala has had its troubles with Mexico, Time and again acts have been committed

Dead and Funerals

MRS. ANNIE WARD DIES

Mrs. Annie Ward, wife of William C. Ward of this city, died at 2 o'clock yesterday afternoon at St. Francis hospital. Mrs. Ward was taken ill Monday, and was operated on a short time later, though there was little hope as to her recovery.

She was 28 years old. Her father is a banker of Winona, Minn., having at one time been a candidate for the United States senate. Mrs. Ward was a sister-in-law of Congressman Sisson of that state. Mr. Ward's father, Dr. Ward, is also prominent in politics in Mississippi. Mr. Ward is manager of the Pike Peak club here.

Mrs. Ward is survived by her husband and two small sons. No arrangements for the funeral have been made, awaiting the arrival of a sister and a brother, who are expected this morning.

ology there was not once struck the note which would, I am sure, if she knows, be most pleasing to her: as hers was one of those brave souls which forge steadily toward their ideals as the enlarged vision is given them. Her avowal for socialism in Buffalo, N. Y., convention in 1897, and desire to devote her activities to its promulgation is never mentioned by her followers. I would suggest that those of her followers who do not know this, and are skeptical concerning the truth of the assertion, write to Mrs. Bailey of the national W. C. T. U., who has been a worker and lecturer in that organization for more than 30 years, for corroboration of the statement; as she was present and heard it. Miss Willard was a logical thinker and plainly saw, while yet here, that so long as there is profit in the various evils, which she and her sisterhood were and are fighting, they could not be eliminated.

Then, ladies of the W. C. T. U., you have an illustrious example, cast aside your prejudice and follow her into the ranks of the only organization which can effect a cure for the evils you are seeking, fruitlessly to exterminate. Statistics show us that despite the strenuous efforts of the prohibitionists, there was more intoxicants manufactured and drunk per capita in 1911 than ever before; the liquor and tobacco habit is steadily growing and claiming victims from the women of the world, and only by the overthrow of capitalism—the profit system—can it be stayed.

So long as there is profit in the various evils now preying upon the body politic and social, we shall continue to suffer from them. In 1911, 1,700 girls are reported lost en route between New York and Chicago, apparently dropped out of existence, this in one year, in a few hundred miles. Think of it! Of the unspeakable ills infesting humanity which can be exterminated only through abolishing the profit system. Study the only logical remedy offered.

Socialism stands for every good that prohibition stands for, and more; for it carries the specific for the social and economic, so closely related, ills.

I have an active prohibition friend whose sense of propriety has been shocked by the two vehement assertions of some socialists, shocked to such a degree that she dodges at the word socialism. She often says, "Oh, it's coming" (the emancipation), "it doesn't matter under what name it comes, so long as it comes," which is quite true, but, conscientious soul, she would be shocked if told that she was loth to "render under Caesar the things that are Caesar's," which is true in this case; as all the amelioration offered or promised by the old parties is directly due to socialist agitation, whose motto also is "Agitate, Educate, Emancipate," not due to any love of the dear people, but to stave off the day when justice, no longer blind, shall clearly see that each has his due.

She also talks of "methods and methods," with, I think, as little understanding of what she really means in that connection as have her hearers. Socialism will evolve and carry out the methods as circumstances require. It purposes to usher in the dawn of the new day, when, for the first time in history, human beings shall claim and be accorded, the divine right to life, liberty and the pursuit of happiness. The principle, for which socialism stands should enlist the interest and activities of women, especially, as they are beginning to realize the connection and interdependence of political and domestic interests of the most vital character. So I ask you, women, to cast aside all prejudice and study these principles in all their bearings to the end that we may hasten the day when downtrodden humanity shall rise up, rid of its shackles, and proclaim itself created in God's image and likeness and deport itself in accordance with that proclamation.

by Guatemala that might have led to war but for the shrewd game played by Cabrera.

On the whole, to call Guatemala a republic is just about as great a misuse of the term as to call the United States an absolute monarchy. To ask of liberty's existence there is about as much of a fiction as the story of the quetzal, a bird of rare plumage which is said to have stopped singing when the conquerors came to Guatemala, and which the Indians say will never sing again until the conquerors leave. No candid observer can believe that a real republic could succeed in Guatemala today, and many of them wonder if it would not be better to have only one ruler, with only one set of grafters, and only one revolution brewing at a time than to have things as they now exist.

BRADSTREET TRADE REPORT

NEW YORK, May 24.—Bradstreet's tomorrow will say:

"With the advent of warm, dry and sunny weather the agricultural situation has improved and final disposition at retail has been quickened, though field work by farmers has prevented much expansion in country trade. In wholesale trade and in jobbing lines there are reports of a fair activity, and where early crop prospects are promising there has been some quickening of demand. It is expected, however, a between season period in most wholesale lines, and buying is conservative.

"The cotton goods industry is well employed and the slight easing of some makes of cotton does not impress the trade much because of the strength of goods generally. New business in cottons at large markets is moderate.

"Business failures in the United States for May 24: 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

GIRL INJURED—Miss Reba Summit the 14-year-old daughter of T. R. Summit of this city, was hurt in a fall from an automobile in Denver last Sunday. The car collided with a horse and the rear seat of the auto was torn off, throwing the girl to the ground. Her injuries are not serious.

SPECIAL POLICEMAN. J. T. Tolman was appointed a special policeman without pay, by Acting Mayor Johnston yesterday, on the recommendation of Commissioner Hume.

FLIES! From his feast of filth and dirt the fly now visits the baby's nursing bottle. Where was he just before? You do not like to think—do disgusting, don't you? Here is the baby, contentedly sucking the mouthpiece of the bottle. Do you wonder that there are so many little graves in our cemeteries? Kill the fly. Wherever he crawls he leaves the seeds of death.

Letter in Mexico Year and Half Unclaimed Is Returned to Gazette

The letter, no real name, and carrying 12 different postmarks of various places in Mexico. A letter mailed by the Gazette October 22, 1910 to H. P. Griswold, M. J. de la Serna, Mexico, was returned to this city yesterday after being in the mail for seven months in the way in Mexico. It was in the hands of several Mexican agents and shows that many letters are lost in the service of the United States. The long delay and the failure to find the address.
